Company Kompas Postojna (Mrs. Maša Miklavčič)

- Comments:

- Presentation cancelations (despite registration fee paid)
- Parallel sessions (can it be avoided?)
- Presentations available for attendees (authors agreement problems)
- Participants list with emails of each person (participants agreement problems)
- Low number of participants

Conclusion

- **Overall success**

as organizers we are satisfied with the overall success of the conference, even though our goal was to have at least 100 registered participants

- **Financial outcome**

positive zero (without sponsors the conference attendees could not be treated as they were).

- **Final remarks**

Eager to hear comments/criticism from Steering Committee members
